

**Faith** is the foundation of all belief in Christ. However, according to the Apostle Peter, faith is only the starting point.

In 2 Peter chapter one there SEVEN characteristics we need to add to our faith if we really want our lives to be a reflection of the life of Christ.

Join with us this season as we learn what it is you need to **ADD+ON** to your faith to

- Mature your faith
- Protect yourself from deception
- Live a life that is pleasing to God and influences the people around you

**SMALL**  **GROUPS**

*SMALL GROUPS are vital to our church because unlike 'program' driven things such as classes and Sunday School, where it's easy to float from program to program and not be connected to anyone.*

*SMALL GROUPS are like a small family that you get to know...for real.*

*You care for each other, you laugh together, cry together and ultimately grow in your faith together.*

*Pastor Amanda*
